

17 February 1967

Lt. General August Schomburg, USA
Commandant
Industrial College of the Armed Forces
Washington, D. C. 20315

Dear General Schomburg:

No members of my immediate staff have attended the Industrial College nor do I have any present plans for such attendance. I know, however, that the Agency generally has many graduates and hopes to continue to send people to the Industrial College. I have little personal knowledge of the requirements in this connection, and since you wanted personal attention given to the letter, I would suggest that you address an inquiry, if you have not already done so, to our Director of Training, Mr. John H. Richardson, who would be in the best position to give you the information you desire.

Sincerely,

SIGNED

Lawrence R. Houston
General Counsel
